PHYO KHANT KYAW

Yangon, Myanmar | 09-972737107 | phyokhantkyaw187@gmail.com GitHub LinkedIn Portfolio

PROFESSIONAL SUMMARY

Motivated and meticulous .NET Developer with over 3 years of experience developing, testing, and deploying RESTful APIs and web applications. Skilled in C#, ASP.NET Core, and SQL. Experienced in integrating AI (OpenAI, OCR) and cloud platforms (Azure). Strong background in backend development, API optimization, and performance improvement using Docker and Sonar.

TECHNICAL SKILLS

- **Languages & Frameworks:** C#.Net (ADO.net, Dapper, ASP.Net Web API, EF core, RESTful API), Java (Spring Framework, Maven), Python, JavaScript, Vue.js, React.js
- **Databases:** MSSQL Server, MySQL
- **Tools & Technologies:** Visual Studio, VS Code, Postman, Power Automate, VMware Workstation, Docker, Azure Blob Storage, SonarQube
- **Soft Skills:** Fast Learner, Hardworking, Teamwork, Time Management, Good Communication

EDUCATION

Bachelor of Computer Information Systems (BCIS) *(Ongoing)*
University of Central Lancashire
Currently pursuing a Bachelor's degree in Computer Information Systems
Focused on Software Development, Web Application Development, and System Design

Higher National Diploma (HND) in Computing – Level 5 *(Completed)*
I-Net College, Myanmar
Built a strong foundation in:
Programming (C#, Java)
Database Management (SQL Server, MySQL)
Software Engineering & System Analysis
Web Development Technologies

PROFESSIONAL EXPERIENCE

ShopDoora | Mid-Level .NET Developer | Feb 2026 – Present

- Developed the Nutrition Coach Project using a Microservices-based .NET REST API architecture
- Set up projects (Nutri_Care, GoodsShop) using Clean Architecture and N-Layer architecture principles
- Designed and implemented Master Data management for all entities, including integration with external APIs
- Built authentication and authorization features, including Admin account creation, Login/Logout, and JWT-based security
- Fixed and optimized bugs across multiple microservices to improve system performance and reliability

- Implemented SMS OTP verification and notification sending features

Thetys Co., Ltd | *Software Developer* | Feb 2025 – Feb 2026

- Built the CP Meiji Purchase Order AI System using .NET REST API, Vue.js, Azure OCR, OpenAI, and Azure Blob.
- Developed a purchase order processing system utilizing OCR and OpenAI, validating AI-generated JSON against complex business rules.
- Managed Azure Blob Storage with SAS tokens for private access and engineered background job services for order processing.
- Integrated LINE Channel for automated distribution of order JSON, text, and images.
- Engineered an Intelligent Portal combining .NET REST API and AI to process business cards, purchase orders, and master PDF files.
- Improved API performance and resolved SonarQube quality gate issues alongside Dockerized backend services.

Secure Link Company Limited | *Software Developer* | Jan 2023 – Jan 2025

- Developed the DOTP Project (Domestic Operator License System) utilizing .NET Core, Angular, and SQL Server.
- Engineered government license modules for application, renewal, modification, and cancellation.
- Implemented business features including license extensions, route updates, vehicle type changes, and business suspensions.
- Applied Repository Pattern for clean architecture and implemented robust account and role management systems.
- Resolved production issues through active debugging and rapid hotfix deployment.

PROJECTS

Luxe-Look E-Commerce System | *Full-Stack Developer* | 2022 – 2023

- Created a full-scale e-commerce system with C#.NET REST API, React.js, and SQL Server.
- Implemented product, category, order, and delivery management modules.

Hospital Booking System | *Backend Developer*

- Developed a booking system using ASP.NET MVC and SQL Server, featuring an admin dashboard and doctor scheduling workflows.

Food Order Management System | *Backend Developer*

- Built a management system using ASP.NET MVC to handle order lifecycles and daily sales reporting.
